

Commercial Aluminum Hydroxide

Product Overview

High purity, low heavy metal content, moderate activity, and easily soluble in acid and alkali.

Main Uses of The Product

Flame retardant additives in flammable materials (such as plastics, rubber, paper, pigments, coatings)

Desiccant

Glass

Filling

Water Purifiers

Building materials

Product Characteristic Index

Product Model	Al ₂ O ₃	Impurity content (%)			Loss on Ignition (%)	Water content (%)	Particle size (%)	
		SiO ₂	Fe ₂ O ₃	Na ₂ O			+80Mesh	+200Mesh
AH-1	≥64.50	≤0.020	≤0.020	≤0.40	34.5±0.5	≤5	< 4	> 70
